Professional Summary

Data and reporting analyst with SQL and Python projects in revenue reconciliation, customer analysis, and KPI validation. As treasurer of HPMI Yordania, kept IDR/JOD finance records and published a Power BI cash report. Combines data preparation and analytical investigation with clear reporting and business recommendations.

Technical Skills

SQL: SQLite, joins, CTEs, CASE, EXISTS, date functions, aggregation, and KPI validation.

Python: pandas, cleaning, merging, reshaping, exploratory analysis, Matplotlib, and Plotly.

Reporting: Power BI dashboards, filters, and Power BI Service publishing; Excel Pivot Tables, data validation, and reporting.

Selected Projects

The Phantom Revenue

SQL and SQLite | Independent case study with real data and a fictional business scenario

- Reconciled a GBP 54,333.75 revenue discrepancy across 35,284 invoice lines by identifying inconsistent cancellation treatment.
- Reproduced gross and net totals and recommended a consistent revenue KPI with a reconciliation control.

The Retention Mirage

SQL and SQLite | Independent case study with a fictional campaign decision

- Replaced unequal observation windows with a fixed 30-day repeat purchase metric; mature cohorts did not show continuous deterioration.
- Recommended a controlled pilot before committing the proposed GBP 30,000 campaign budget.

E Commerce Customer and Product Analysis

Python, pandas, Matplotlib | Independent exploratory project

- Cleaned and merged product-interaction data and segmented 3,900 separate customer records by age and location; documented revenue interpretation limits.

Organizational Experience

HPMI Yordania (Indonesian Student Association in Jordan) | Treasurer | May 2025 - Mar 2026

- Kept organizational income and expense records in IDR and JOD.
- Built and published an interactive Power BI cash report with separate IDR/JOD totals, cash-flow trend, totals by division and recent transactions.

HPMI Yordania | Secretary | May 2024 - Apr 2025

- Maintained Indonesian student records for organizational documentation, reporting, and coordination; built Power BI student distribution views.

Education

University of Jordan | Bachelor's studies in Arabic Literature | Expected January 2027

Certifications

IBM via Coursera, 2026: Python Project for Data Science; Python for Data Science, AI & Development; Excel Basics for Data Analysis

Languages

Indonesian: Native | English: Professional working proficiency (IELTS 6.5) | Arabic: Conversational
